

ISG™ Campus OneCard™ Systems

Enhance your campus services and decrease your costs.

It's actually pretty easy to do.

You can bring state-of-the-art innovation to your campus technologies that enhance the student experience and drive down your costs when you partner with Heartland PaymentSystems™.

Heartland Payment Systems Campus Solutions is changing the landscape for academic institutions nationwide. From unique campus card programs to cost-effective, automated payments solutions, we can help you enhance your campus services and decrease your costs.

A campus card program that does more for your campus.

Looking to expand your existing card program or establish a new one?

Heartland's Campus OneCard™ is much more than a form of identification. It's a multi-functional campus ID card as well as a no-fee*, FDIC-insured, stored-value card that pays for it all from dining and books to laundry and vending off-campus purchases and more. Your students, faculty and staff only need to carry around one card or a contactless tag which can also be used for facility access, attendance, tuition payments, receiving paychecks and more.

Powered by Heartland's Give Something Back (GSB) NetworkSM, the OneCard program provides a quick, flexible payment method so you can offer convenient services reduce your operating expenses and develop off-campus, revenue-generating programs. In addition, you can increase security and access control, enhance campus life offerings and improve the operations of your academic resources using the Campus OneCard system.

OneCard: Campus Life

With the OneCard, you can differentiate your school from competitors by offering your students unparalleled convenience in the most important aspects of campus life residential housing, on-campus dining, vending, laundry and events.

Housing

Efficiently serve your students' housing needs.

- Create a safe living environment by requiring residents and guests to swipe their OneCard to gain entry to residence halls and consolidate your inventory tracking and equipment.

Dining

Expand on-campus dining offerings.

- Boost sales by providing individualized options for different dining needs.
- Streamline operations and monitor your inventory and purchases with tracking software

Vending and Laundry

Provide a cash-free alternative for vending and laundry.

- Minimize theft, vandalism and coin jams with less cash in the machines reducing break-ins, repair costs and lost sales.

Activities and Events

Enhance your activities and events.

- Monitor attendance in class and at academic activities, hold web-based campus elections, reduce entry hassles at events and offer students individualized plans, discounts and equipment rental fee payments.

OneCard: Access and Security

The OneCard system helps keep your campus safer by providing an automated way to ensure only students, faculty, staff and registered guests have access to your facilities limit entry to secure areas to authorized personnel and set specific times to lock or unlock doors.

Campus Safety

Control your campus with advanced access and security.

- Increase security, consolidate security and implement a pre-planned sequence of events

OneCard: Academic Resources

The OneCard system helps you expand your academic resources with solutions for your bookstore, library, computer labs and copy centers so they can realize financial gains, run more efficiently and better serve your students, faculty and staff.

Bookstore

Enhance your bookstore's functionality and efficiency.

- Boost your bottom line, reduce pricing errors and increase the convenience for your customers by making your products available for purchasing online.

Library

Streamline your library's operation so you can focus on serving your students.

- Check out books with the OneCard, Keep your guests and books safer and receive fine payments faster.

Computer Labs and Copy Centers

Improve the operational value of your computer labs and copy centers.

- Reduce maintenance costs and increase the lifespan of your equipment, charge copying and printing fees to specific grants or departmental budgets and generate revenue by charging for various services.

Payments Solutions

Heartland can help you manage your payments efficiently and cost effectively. From tuition and financial aid payments to credit/debit/prepaid card processing and check management services, Heartland can service all of your payments processing needs with no worries about data compromise, security or PCI compliance.

Tuition

Integrate a flexible online solution for tuition payments.
